Placement Process:

1. Technical Round (27 candidates appeared for this round)

There were Questions about OOP, Databases, Docker, AWS majority of which were used in my projects that i mentioned.

To Prepare for this round i had gone through all of my projects even ones not listed in my resume but uploaded on my github.

I have also Covered my basics of OOP, Python, API, AWS Cloud basics(EC2, S3 Bucket), Docker (API Specifically used in my Docker monitoring tool), Databases (Structured & Non Structured).

Also some Situational based Questions that i had prepared form online forums and Websites like GeekForGeek, Javatpoint, etc

2. HR Round (15 candidates appeared for this round)

In this round Situational and Technical Questions were asked as for technical questions i had already prepared for round 1 it same process was repeated and as for the Situational based questions they had to be answered honestly as they were based on what was my personal Opinion/Action that i would have taken or will take in case xyz Situation happened.

Some Questions were also related to companies like what are the Values of Barclays (RISES) these had to be studied from the official website & Wikipedia of Barclays.

Example Questions:

1. What are values of Barclays(RISES)
2. Why Barclays ?
3. When did I lose my Integrity in any situation?
4. What is Risk ?
5. What if Risk is going to cost us loss? What will be my action ?

6. If there are 2 ropes burning uneven thickness taking 1 hr to burn from start to end i had to measure the 45 min mark.

Useful Tips:

1. Read your Resume before Entering Interview.
2. Try to have a Conversation with the interviewer about whatever questions are asked.
3. Ask Questions to identify edge cases in the Questions asked or to get Clarity.
4. Dont Bluff If you don't know about something just say no i don't know and move to different question.
5. Mention your Knowledge or some achievement you have related to the Company's interest.
6. Go with the Flow of the interview.
